Napoleon rebuilt an empire from revolution, fought against whole Europe almost by himself, inventor of a pure modern warfare, and his Napoleon kodeks is foundation for every single country's laws and so on, yet Alexander inherited his empire from Philip (which, a beast empire of that time), and never got defeated, never faced a truly matched enemy for his empire

Privacy Policy

By using GOAT.uz, you consent to the data practices described in this policy.

Our Commitment to Your Privacy

Welcome to GOAT.uz. We respect your privacy and are committed to protecting your personal information. This Privacy Policy explains how we collect, use, and share information when you use our website and services. Below you will find detailed information regarding our data practices, including those related to our advertising partners.

Information We Collect

We collect information you provide directly to us, such as when you create an account, create a post, or otherwise communicate with us. We may also collect information automatically as you navigate the site, such as usage details and IP addresses.

Contact Us

If you have any questions or concerns about this Privacy Policy or our data practices, please do not hesitate to contact us at info@goat.uz.

GOAT

Contribute to GOAT.UZ

Thank you for your interest in contributing to GOAT! We are building a community-driven platform, and every contribution, no matter how small, is valuable and deeply appreciated.

This document provides a set of guidelines to help you contribute effectively. Following them helps us maintain code quality, streamline the review process, and work together more efficiently.

How You Can Contribute

There are many ways to contribute, from writing code and documentation to reporting bugs and suggesting new features.

Reporting Bugs

If you find a bug, please ensure it hasn't already been reported by searching the issues on GitHub. If you can't find an open issue addressing the problem, open a new one. Be sure to include a clear title, a detailed description of the steps to reproduce the bug, and any relevant logs or screenshots on our issue tracker.

Suggesting Enhancements

Enhancement suggestions are tracked as GitHub issues. Before creating a suggestion, please check the existing issues to see if your idea has already been discussed. Provide a clear and detailed explanation of the feature, its potential impact, and why it would be useful.

Submitting a Pull Request

We actively welcome your pull requests. To ensure a smooth process, please follow these steps:

1. Fork the repository and create your branch from 'master'. Use a descriptive branch name (e.g., 'feature/user-profiles' or 'fix/login-bug').

2. Set up your local environment and make your changes. Adhere to the existing coding style.

3. Issue the pull request to the 'master' branch. Provide a clear description of the problem and solution. Include the relevant issue number (e.g., 'Closes #37') if applicable.

Code of Conduct

This project and everyone participating in it is governed by the GOAT Code of Conduct. By participating, you are expected to uphold this code. Please report unacceptable behavior to the project maintainers. Read our Code of Conduct.

We look forward to your contributions!

Terms of Use

By using this website, you agree to the following terms and conditions.

1. Acceptance of Terms

By accessing or using our platform, you agree to be bound by these Terms of Use. If you do not agree to these terms, please do not use the service.

2. User Responsibilities

You agree to use the platform in a lawful manner. You must not post harmful, misleading, offensive, or copyrighted content without permission.

3. Content Ownership

You retain ownership of the content you post, but by posting it here, you grant us a license to display and distribute it as part of the service.

4. Modifications

We reserve the right to update or change these terms at any time. Continued use of the platform after changes means you accept the revised terms.

5. Disclaimer

We provide this platform 'as is' with no guarantees. We are not responsible for any loss, damages, or issues that may arise from using our service.
